

**ADVISED NEWSINVEST
FOR ITS DELISTING FROM EURONEXT ACCESS**

November 2021,

NEWS INVEST was listed on the EURONEXT ACCESS marketplace of EURONEXT Paris and has three business areas:

- An Equity division investing in non-listed companies, and among others, companies offering marketing consulting services on the Internet markets, in finance and in sustainable development,
- A Real Estate division investing in Parisian office property,
- A WELLBAW division involved in managing flexible offices and the properties of NEWS INVEST's Real Estate division, as well as other locations all in Paris.

With only a small free float and no intention to raise funds on the market, the continued listing of NEWS INVEST shares no longer seemed justified, which is why M.F.I - MARKETING FINANCE INTERNATIONAL, NEWS INVEST's main shareholder (the Offeror), acting in concert with certain shareholders (the Offeror Group), wished to initiate a delisting procedure.

ATOOUT CAPITAL advised NEWS INVEST for the delisting of its shares from the EURONEXT ACCESS marketplace.

This operation took the form of a Voluntary Repurchase Offer by which M.F.I, acting in concert with some other shareholders, acquired the shares held by all its minority shareholders at a unit price of €2.28 per share.

At the request of the majority shareholders, NEWS INVEST's shares were delisted following this transaction.
