

ADVISED THE SHAREHOLDERS OF VERANDALINE FOR ITS SALE TO BREIZH REBOND

September 2024

Acquired by Mr. Francis LEDUC in 2013, VERANDALINE is a specialist in the production, distribution, and installation of custom-made extensions, as well as verandas, pergolas, and, to a lesser extent, pool enclosures. VERANDALINE is a leading player in home extensions with over 16,000 completed projects.

The company distributes its products in the B2C market through a network of 6 agencies located in the Grand Ouest area and, more recently, in the Île-de-France region, which holds great potential.

VERANDALINE's production is based entirely in Brittany, at its factory in Corlay (22).

Thanks to its innovative positioning, VERANDALINE fully controls its value chain, from design to installation. Beyond its commitment to quality and innovation, VERANDALINE effectively addresses today's urban challenges, including the reduction of land artificialization and urban densification.

ATOUC CAPITAL advised the LEDUC family, majority shareholder of VERANDALINE, for the sale in MBO to the private equity fund BREIZH REBOND. Mrs. Emilie BEAUREPAIRE, formerly General Manager, becomes the new President, while Mr. LEDUC has reinvested alongside BREIZH REBOND.
