

**ADVISED TSG ON THE TWO ACQUISITIONS OF  
E-PORT ELEKTROTECHNIK GMBH (AUSTRIA)  
AND E2MS SRL (BELGIUM)**

December 2024

TSG, the European leader in technical services for responsible mobility solutions, has completed the acquisitions of **E-PORT ELEKTROTECHNIK GMBH** and **E2MS SRL**, two independent electrical installation companies based in Austria and Belgium respectively.

**E-PORT ELEKTROTECHNIK GMBH**, based in Linz, Austria, is a specialist in the deployment of photovoltaic systems, electrical installations and construction of custom-made control cabinets. The company integrates a complete offer from the design, installation and maintenance of complex installations dedicated to the BtoB environment. The company also includes dedicated offers on connectivity, alarm and video surveillance systems and access control management.

**E2MS**, based in Schoten, Belgium, designs and deploys solutions dedicated to medium and high voltage transformers. With a team of experienced engineers, the company addresses its offer to many BtoB clients with a specificity in different sectors as industry, telecom and renewable energy.

With these two new acquisitions, TSG, owned by its management and the GROUPE HLD, consolidates its position as the leading provider of technical services for responsible mobility in Europe.
