

ADVISED DCM-ATN FOR ENTRY OF VERDOSO TO ITS CAPITAL

April 2025

DCM-ATN (Nanterre - 92) is a leading manufacturer of converting machines for the flexible packaging and cardboard packaging industries. DCM-ATN is a brand recognized worldwide for the quality of its equipment, its longevity and its capacity for innovation. They play a crucial role in transforming raw materials into finished or semi-finished products. Equipment designed and assembled in the Paris region is used in many sectors, such as food, pharmaceuticals, cosmetics and other consumer goods industries, where efficient packaging is essential.

Since its creation, DCM-ATN has relied on its design office and mastered its entire value chain, enabling it to supply reliable, innovative machines, and to ensure customer satisfaction thanks to extensive technical assistance, training and after-sales service. The Group generated sales of €21 million in 2024, over 90% of which were exports.

ATOOUT CAPITAL assisted Mr PIAU, DCM-ATN's majority shareholder and CEO, in opening up its capital to the industrial holding VERDOSO.

This operation is in line with DCM-ATN's strategy of accelerating its development, diversifying its activities and offering its customers ever more comprehensive solutions. This is the first step in the construction of a greater international ambition, as the new shareholder pool intends to complete its growth strategy by initiating build-ups in Europe. DCM-ATN's legitimacy and recognition on the international stage should encourage this.
